I think it's a good idea to have an EPA presence and I think it's a good idea for you to go. Do you think you can get **Ex. 5 Deliberative Process (DP)** to go with you?

Subject: Sky Valley- teacher allegation

Hi-

I wanted to let you know that I spoke with the teacher for **Ex. 6 Personal Privacy (PP)** this morning. **Ex. 6 Personal Privacy (PP)** entered the classroom during the re-test in January and the sampling device was next to an open window. **Ex. 6 Personal Privacy (PP)** walked around the school and did not see any other machines running. It is not clear if **Ex. 6 Personal Privacy (PP)** went to the Gym building though. **Ex. 6 Personal Privacy (PP)** stated that John Mannix knew Greg Middaugh from a personal relationship going years back to when they were both in Spokane. Overall, **Ex. 6 Personal Privacy (PP)** has an extremely high distrust of the school.

Whether or not any of the allegations are true, given the extreme distrust and the likelihood that other teachers/parents feel the same way, do you think someone from EPA should be onsite to witness the air sampling on Monday? I am willing to go. However, it has been years since I over saw any TO method air sampling. I suppose I should just be able to read their QAPP and Sampling Plan and ensure that they are operating in accordance with it, if nothing else.

Thoughts?
